

## YOUR SCHOOL NAME Presents

# Sand Art

### Materials

- Pencils
- Stencils
- Fine sand
- Craft glue
- A card board
- Scissors

### Directions

- First step is to chose your design. It can be anything you wish. You can even draw your own doodle. But keep in mind not to chose thin line drawings.
- Draw your design on a piece of cardboard. If you are good enough you can do free hand sketching. If you have difficulty in drawing you can trace it or use stencils.
- Spread craft glue on the Design part by part. Apply glue on a small portion of the design sprinkle lots of fine sand on it before the glue gets dry and then shake off.
