## Power Off and Play! Paper Origami Game

1. Cut out the square on the dotted lines
2. Turn over the paper so the page is blank
3. Fold all corners into the middle to make a smaller square.  
You should now see the numbers and colours
4. Flip it over
5. Fold all the corners into the middle again
6. Fold and unfold the bottom of the square up to the top
7. Fold and unfold the left edge of the square over to the right
8. Push the four corners of your square into the centre and then slide 4 fingers into the flaps of your fortune teller
9. Now write your screentime alternative options under the numbers. Make sure there is one alternative under each number
10. Now you are ready to play the game. Insert your fingers into the fortune teller. Choose a colour and spell it out opening the fortune teller a different way each letter. Leave the fortune teller open on the last letter you get to and choose a number. Open the fortune teller a different way each time as you count up to the number you chose. When done choose another number and open up that flap.
